Freudenberg Medical steps into India with range of high-quality fluid handling products

25 November 2021 | News

High purity biopharma tubing is cleanroom manufactured from two dedicated sites in the US and Europe

Freudenberg Medical, a global contract manufacturer of medical device components and biopharma tubing, showcased its premium silicone tubing, hose, and assemblies at India's largest pharma expo - CPhi & PMEC India 2021.

With this participation, Freudenberg Medical formally steps into India with its range of high-quality fluid handling products. Freudenberg has been manufacturing high purity tubing since 1989 from two dedicated operations in the US and Europe.

Freudenberg Medical designs and manufactures the HelixMark and PharmaFocus Premium brands of silicone tubing for biopharmaceutical fluid processing. Custom tubing is also available for oxygen concentrators, ventilators, catheters, and other medical devices.

PharmaFocus Premium silicone tubing was designed to meet the demanding requirements of single-use pharmaceutical and bioprocessing applications and has been extractable tested for BPOG and USP 665 protocols including a full validation package.

HelixMark silicone tubing is available off-the-shelf and ready to ship in a wide array of product types and sizes including double-braided, colour stripe, peristaltic pump, and opaque tubing as well as stoppers and clamp gaskets. HelixMark also offers a choice of silicone raw material from the major suppliers - Dupont Liveo, Wacker, Momentive, or Nusil.
