Founder Speaks-

"As the world's second-most-populous country and one of its fastest-growing economies, we face challenges in healthcare, which can only be resolved by empowering the healthcare professionals. The government equally understands the importance of focusing on healthcare as this year's budget saw an increase in spending by 137%. The Government is further planning to increase public health spending to 2.5% of the country's GDP by 2025."

- Vikalp Sahni, Chief Executive Officer, Eka.Care, Bengaluru
