Govt organises â??National Innovation Weekâ?? to address upcoming challenges

10 January 2022 | News

Eminent industry leaders, emerging unicorn founder, investors and policy practitioners will join as key note speakers and panelists to share their views and perspective on different aspects of innovation and startups

To commemorate 75th years of progressive India 'Azadi Ka Amrit Mahotsav', Ministry of Education (MoE), AICTE and Ministry of Commerce& Industry (DPIIT) are jointly organising ‘National Innovation Week’ from 10th – 16th Jan 2022.

The innovation week is also the iconic week of Ministry of Education. This Innovation week will highlight various initiatives undertaken by these agencies to spread awareness to promote innovation and entrepreneurship in India.

A 2 days long e- Symposium on ‘Building Innovation Ecosystem in Educational Institutions’ will be held on 11th and 12th January 2022 by the Ministry of Education.

From 10th January onwards, 75 innovative technologies selected from various programs such as National Innovation Contest, Smart India Hackathon, YUKTI2.0 and Toycathon conducted by the Ministry of Education will participate in e-exhibition and demonstrate their innovations.

Dr Abhay Jere, Chief Innovation Officer, Innovation Cell, Ministry of Education said that the Innovation Week is an opportunity for all innovators to showcase their work and inspire the young minds to take their entrepreneurial journey more seriously so that India can emerge as a global 'Innovation and Startups hub'.
