HCAH raises Rs 112 Cr to build largest out-of-hospital care platform in India

13 January 2022 | News

The investment will help bolster the out-of-hospital care segment in the country

Noida-based health-tech company HCAH (HealthCare atHOME) has raised Rs 112 crore from ABC World Asia, a Singapore based impact-focussed private equity fund, to help build India's largest and most clinically accomplished out of hospital healthcare delivery platform.

HCAH will use this investment to build its presence in the physical rehabilitation and recovery through its service range of Home ICU, Inpatient rehab in transition care centres, digital and home rehab; and rehab equipment, elderly care services including long term nursing, palliative and attendant care services and chronic disease management services including screening, diagnostics, patient support, adherence programmes in association with leading pharma companies.

All the services are delivered through HCAH’s proprietary technology platform in homes, centres and digitally.
