Medall plans to open 300-400 centres in 2022 in South India

18 January 2022 | News

The centres will be in multiple formats

One of South India’s largest chain of medical diagnostic services providers, Medall has announced its plans to expand across South India.

Apart from penetrating deeper into Tamil Nadu into Tier II and III cities, Medall will also be expanding into other South Indian states, viz, Karnataka, Andhra Pradesh, Telangana and Kerala.

Positioned as a franchisee model, the centres will be in multiple formats consisting of collection centres, mini wellness centres, full-service centres, lab collection centres and Medall Care Centres. Medall plans to open about 300 – 400 centres across South India during the year.
