

Startup India recognises India Accelerator as the 'Best Accelerator of the Country'

19 January 2022 | News

India Accelerator is the only GAN partnered accelerator and mentorship-driven accelerator in India

India Accelerator - one of the country's premier seed accelerators & the only one associated with GAN (Global Accelerator Network) received the 'Best Accelerator of the Country' award at The National Startup Awards (NSA) 2021 hosted by Startup India.

Ashish Bhatia, Founder India Accelerator said, "It is an incredible feeling of getting acknowledged for one's effort and is truly a glorious moment for the entire IA team. The last four years have been extremely enriching for all of us at IA; we will continue to strive on our mission of strengthening the Startup Ecosystem in India and look forward to achieving many more such milestones along the way in the years to come."

India Accelerator is the only GAN partnered accelerator and mentorship-driven accelerator in India. It is also a leading seed-stage accelerator in Asia that is empowering startups to build innovative and scalable products/ solutions, demonstrating their high potential of employment generation or wealth creation.
