Founder Speaks-

“We are currently enjoying a good growth story since our inception and are looking to steadily expand to other cities. We are also in process of tying up pan india Radiology services. Our vision is to continuously enhance our services and become pioneers in providing the best of health care and diagnostic abilities for convenient access to the people. One can witness the rise in other diagnostic services with varied offerings and these services are steadily gaining the trust of the consumers. The contemporary health market is also growing due to the increase in awareness and availability of such services across the world. This facet of increased adoption is helping the sector and we hope to soon become the diagnostic service of choice in every city that we are present in.”

- Dr Srinivas Neela, Director and Chief Executive Officer, BookMyDiagnostics
