There must be also a significant investment in medical devices: SS INNOVATIONS

01 February 2022 | Views

Dr Sudhir Prem Srivastava, MD Founder, Chairman & CEO, SS INNOVATIONS

"I think it is great to see an increase in digital health and telehealth will absolutely help but telehealth applications must be across the board. It must be included that there is tele education, telediagnosis, there should be tele therapeutic and gradually we must be decentralixed whereby healthcare is brought to all parts of the country. There must be also a significant investment in medical devices because currently, we import, which keeps the healthcare cost very high and not affordable to many of the people within the country."
