

Insurtech HealthySure raises \$1.2 Mn in Pre-Series A funding

16 February 2022 | News

Funds raised to be utilised in technology, marketing, sales and operations

Insurtech start-up HealthySure has raised \$1.2 million (Rs 9 crore approx.) in a Pre-Series A round led by Inflection Point Ventures. The round also saw participation from We Founder Circle, Dexter Angels, Campus Fund, HEM Angels and other private investors. The funds will be used to further fuel its mission of offering innovative and affordable group health insurance led solutions to the Indian workforce and their families.

HealthySure with a 20-member team is planning to scale up to 50-member team over the next six months. The start-up also aims to cover 150,000 individuals in the next 12 months with comprehensive health security and management.
