

Mumbai-based CLIRNET raises \$1 Million In Pre Series A funding

22 February 2022 | News

The doctor-centered platform will utilise the funds to strengthen its tech capabilities, expedite doctor acquisitions and amplify the content and operational team

Mumbai-based doctor-centered platform CLIRNET has raised \$1 million in the Pre-Series A funding round led by a group of senior executives of major international funds management and banking organisations. The platform will utilise the funds to strengthen its tech capabilities to leverage AI for deepening platform engagement, expedite doctor acquisitions and amplify the content and operational teams. The company was seeded by the promoters of Life Science Logistics, USA (majority stake acquired by Blackstone in January 2022).

CLIRNET is launching a suite of pioneering products to help connect doctors and patients. By applying AI, CLIRNET's digital tools will provide doctors with the knowledge they need, when they need it while simultaneously supporting patient management.
