

C-CAMP invites ideas for AMR Diagnostics Challenge 2022

10 March 2022 | News

Scientific mentoring sessions will be organised from top-notch industry

Bengaluru-based Centre for Cellular and Molecular Platforms (C-CAMP) calls for ideas for AMR Diagnostics Challenge 2022. The ideas are for new diagnostic tests for rapid, accurate, point of care and cost-effective solutions to address the problems of AMR against infections by priority pathogens in low and middle-income countries.

Applications are invited from undergraduate, postgraduate and doctoral students, innovators, researchers, academicians, clinicians and early-stage startups from India. The applications can be sent till March 15, midnight.

There will be three scientific mentoring sessions from top-notch industry experts. Visitors will be mentored for applicable funding opportunities by C-CAMP etc.
