Taylor & Francis Group partners with Biotech Research Society India

24 March 2022 | News

To amplify biotechnology research in India

Taylor & Francis Group has announced a publishing partnership with the Biotech Research Society, India (BRSI).

Under the terms of the partnership, the BRSI will recommend prospective authors from its membership to Taylor & Francis. The aim is that BRSI members promote their biotechnology research to a wider audience by publishing via Taylor & Francis Group global publications.

Taylor & Francis is one of the leading research publishers in the world. The BRSI is a non-profit, scientific, professional society dedicated to promoting excellence and competence in the field of biotechnology. It promotes biotechnology research and development and encourages collaboration between academic institutes and biotechnology industries. It also shares knowledge through lectures, seminars, and symposia on scientific programs and societal missions.

According to a report by India Brand Equity Foundation, India is among the top 12 destinations for biotechnology worldwide and has more than 2,700 biotechnology start-ups and more than 2,500 biotechnology companies. The same report says the Indian biotechnology industry is forecasted to be worth $150 billion by 2025.
