Bayer to unveil 27 telemedicine centres across eight states

01 April 2022 | News

The centres will be set up in partnership with RxDx Healthcare and Piramal Swasthya, the public health arm of Piramal Foundation

Bayer will set up 27 telemedicine centres in 12 districts across eight states in India over the next two years, through Bayer Foundation India. The centres will be set up in partnership with RxDx Healthcare and Piramal Swasthya, the public health arm of Piramal Foundation.

The key objectives of this endeavour are to establish a telehealth facility in the identified states of Bihar, Chhattisgarh, Jharkhand, Karnataka, Gujarat, Uttar Pradesh, Maharashtra, and Madhya Pradesh to provide complete healthcare solutions via telehealth and conduct training and awareness sessions on health, hygiene and nutrition. In addition, medical camps will be conducted at regular intervals to create awareness on specific health aspects like breast cancer, diabetes, dermatology.
