

GOQii Smart Healthcare forays into UK with an investment of GBP 10 million

23 April 2022 | News

Aiming to create 100+ high quality jobs

Mumbai-based GOQii Smart Healthcare is foraying into the UK for patient care. The startup is making an investment to the tune of GBP 10 million in the UK over the next 3 to 5 years and aims to create 100+ high quality jobs in the healthcare arena of the UK.

Chronic diseases represent one of the biggest challenges faced by the healthcare systems across the world. GOQii App is technologically advanced to bring together all the key stakeholders, including Pharma, Device, Diagnostics and personal coaches, to provide a seamless experience for people with any chronic ailments such as diabetes, stroke, gut or cardiac issues to manage their disease condition.

GOQii is also forging a partnership with Modality Partnerships, UK's largest GP super that operates primary health care and community services nationally. GOQii along with its partners is committed to NHS values and to grow, innovate and sustain services in General Practice and across the system.

"We are very excited to foray into the UK. It will help thousands of patients across the UK to improve their health outcomes. GOQii is a unified platform to provide a holistic approach to disease care. We already have several people with chronic medical conditions like diabetes and cardiac issues on our platform who have reversed their disease condition purely with lifestyle modification," said Vishal Gondal, Founder & CEO, GOQii.
