Niramai, Healthians partner for breast cancer screening

09 May 2022 | News

The initiative has been launched in the NCR region

On the occasion of Mother's Day, Niramai has partnered with Healthians. The partnership will leverage Niramai's radiation-free technology to make women more aware about their breast health and conduct regular screenings as a preventive measure in a non-invasive, painless and privacy-aware manner.

A portable solution called Thermalytix will detect breast cancer at a much earlier stage than traditional screening methods. With this partnership, Healthians launches breast cancer screening in the NCR region.
