Dr Nina Kottler joins Synapsicaâ??s Advisory Board

19 May 2022 | News

She has over 16 years of experience in emergency radiology

Dr Nina Kottler, Associate Chief Medical Officer for Clinical Artificial Intelligence at Radiology Partners, has joined as a member of its Advisory Board.

Nina Kottler is a radiologist with over 16 years of experience in emergency radiology. With a background in applied mathematics and optimization theory, she has been using imaging informatics to improve quality and drive value in radiology. Dr Kottler is the associate CMO for Clinical AI and VP of Clinical Operations at Radiology Partners (RP). She leads RP's Data Science and Analytics division, whilst overseeing clinical AI for the practice.

Dr Kottler also developed and works in Radiology Partners' remote imaging division, Matrix, and serves internally on their AI, IT, Leadership and Culture support boards and their Belonging Council. Externally, Dr Kottler chaired the Population Subcommittee of the ACR DSI's non-interpretive panel and served on the ACR Informatics Commission and RSNA Radiology Informatics Committee (RadLex Steering Committee). In 2018, Dr Kottler received the Trailblazer Award – an award recognising a pioneering female leader in the field of imaging informatics.
