Ayu Health Hospitals plans robust expansion in Rajasthan

31 May 2022 | News

Aims to become the largest hospital chain in the state by end of 2022

Ayu Health Hospitals has announced its business expansion plan for Rajasthan by entering Alwar, Behror and Ajmer markets and by adding 15 more hospitals to its portfolio by end of this year. As a part of its expansion, the startup will soon start

working with a few of the top hospitals like Park Hospital, Abhishek Hospital and Shekhawati Hospital in Jaipur to take quality healthcare to the masses through standardisation of healthcare services provided by neighbourhood hospitals.

The company currently has more than 1500 beds across 11 renowned hospitals such as NIMS Hospital, Marudhar Hospital, Bhandari Hospital and Evaa Hospital in the city. This expansion announcement came right after raising Series B funding of $27 million in a round led by Fundamentum Partnership, earlier this month.

Earlier this year, the company acquired Jaipur-based SwasthyaSewak, to bring multi-disciplinary healthcare services to citizens with its unique and trust-building feature of pricing transparency.
