Neuberg Diagnostics with Abha Laboratory opens centre in Surat

06 June 2022 | News

Plans to open 15-20 collection centres within the next six months

Neuberg Diagnostics and Surat-based Abha Laboratory have formed a joint venture (JV) and inaugurated a state-of-the-art central Laboratory in Surat. The new company will be called Neuberg Abha Clinical Laboratories.

The lab is equipped to conduct and process about 2500-3000 samples in a day and deliver results within the given turnaround time which differs from test to test while maintaining the best-in-class quality. The state-of-the-art lab plans to open 15-20 collection centres within the next six months across Surat and South Gujarat.

The lab will also focus on specialised testing needs for hospitals, nursing homes, and smaller laboratories across South Gujarat. Additionally, Neuberg as a group is equipped to conduct futuristic tests such as genomics, proteomics, metabolomics, molecular biology, and digital pathology.
