TaCa Healthcare starts operations in Telangana, AP

10 June 2022 | News

Plans to invest over $5 million over a year to upgrade the existing healthcare facilities in tier-II and tier-III cities

Health tech startup TaCa Healthcare has begun its operations in Telangana and Andhra Pradesh. The health-tech start-up has partnered with 20+ renowned hospital partners, including Medicover Hospitals, a multinational hospital chain, which has a presence in 12 countries in Europe and India. The startup plans to establish six state-of-the-art TaCa Centre for surgery in the next two years in these states.

The company, which now has a presence in seven states— Telangana, Andhra Pradesh and Maharashtra, Madhya Pradesh, UP, Delhi and Haryana—plans to invest over $5 million over a year to upgrade the existing healthcare facilities in tier-II and tier-III cities, upskilling surgeons.
