- Expanding product portfolio mainly focused on water related problems in the industry

Founder Speaks-

"The cleaning and hygiene industry is going through a shift by incorporating disruptive technologies that reduce the amount of physical labour and increase productivity and efficiency of the manpower. The focus is also largely increased towards technology and sustainability driven solutions that assures accountability and is environmental and business friendly. Post-COVID-19 this trend is increasing and thus, we are witnessing tremendous growth in digital and sustainable solutions in the sector."

- Dr Rachna Dave, Chief Executive Officer & Founder, MicroGO, Chennai
