

MedleyMed launches Ananda E-Clinic

05 July 2022 | News

Transforms pharmacies into virtual clinics

Hyderabad-based Medley Medical Solutions has announced the formal launch of its virtual clinics branded 'Ananda E-Clinics.' It's a unique model that enables local pharmacies to offer virtual clinics and facilitate online doctor consultations with patients.

Ananda E-Clinic follows an easy, quick, and simple format that allows it to be set up in every mid-size and large pharmacy as it requires just a kiosk space. From selecting the doctors to consulting with them and getting the medicines as per prescription will all happen at each Ananda E-Clinic Kiosk.

More than 50 pharmacies in Hyderabad have signed up for setting up Ananda e Clinics and the implementation process is on.
