Axtria opens offices in Noida, Pune and Hyderabad

30 August 2022 | News

Eyes 30 per cent year-on-year revenue growth in FY 2022-23

Axtria, a life sciences-focused global cloud software, and data analytics company, announced the opening of three new offices in India as part of its business expansion plans. The new offices in Noida, Pune, and Hyderabad will play a critical role in strengthening Axtria's workforce, tapping into India's unique demographic advantages. Axtria recently opened a new office in Bengaluru. With the expansion, Axtria will be able to create extensive job opportunities in the Science, Tech, Engineering, and Mathematics (STEM) fields, pan-India.

The company will significantly expand its headcount in the next 8-10 months, with over 1,000 data scientists, software developers, and data engineers across its office locations.

Axtria currently has nine offices in India, including Gurgaon, Noida, Hyderabad, Bengaluru and Pune. Axtria will continue to expand its operations in India to take advantage of India's vast talent pool.
