Drug discovery & Development: GAME CHANGERS

09 February 2011 | News

Research & development is the lifeblood of the biotech industry. *BioSpectrum* in this special issue has brought together some of the R&D leaders from the industry to share their thoughts on the Ã¢â?¬Å?Game Changers in Drug Discovery & DevelopmentÃ¢â?¬?.

Later this month, BioSpectrum is organizing the second edition of the BioSpectrum Technology Forum 2011 (BSTF 2011) which has a series on interactive panel discussions with the same theme: Ã¢â?¬Å?Game Changers in Drug Discovery & Development.Ã¢â?¬? This two-day forum will be held in Bangalore on February 22-23, 2011.
During these two days, senior scientists and R&D heads from public and private sectors across the country will be sharing their insights & experiences on topics such as Ã¢â?¬Å?Stem Cells & Gene Therapy, Next Generation Innovation, Strengthening the Drug Pipeline, Computer-aided Drug Discovery, and Novel Approaches to Drug Discovery.Ã¢â?¬? In the ensuing pages, read on some insights from these R&D leaders:
