# GOQii launches new ECG-enabled smart watch

30 September 2022 | News

**The product comes with ECG, Body Temperature, SpO2 Oximeter, Heart Rate, Fitness Tracker**

GOQii, the smart preventive healthcare company, has expanded its preventive healthcare portfolio with the launch of GOQii Smart Vital 2.0. The newly launched GOQii Smart Vital 2.0.HD display smart watch comes with electrocardiogram or ECG, Body Temperature, SpO2 Oximeter, Heart Rate, Fitness Tracker, a 3 month personalized coaching and health and life cover.

GOQii SmartVital 2.0 is India's first 'outcome based health and life insurance programme' that enables you to get a dynamic Health Insurance cover for up to Rs 5 lakhs and Life Insurance cover of up to Rs 1 lakh depending on the active lifestyle & monthly health score, in partnership with Kotak General Insurance and Kotak Life Insurance.

The smart watch can record a single lead ECG off the user's wrist and will make diagnosis reports readily available to the users. The ECG feature also shows promise in Atrial Fibrillation (A-Fib) detection and management and could enable users to take a more active role in their health care.

GOQii is also gearing up to its health metaverse. The company will develop various offerings that leverage blockchain tokens and gamification in preventive healthcare.
