

Neuberg launches first high-end integrated diagnostics centre in Raipur

21 November 2022 | News

To offer integrated diagnostics services combining best of pathology & radiology diagnostics under one roof

Neuberg Diagnostics has announced the launch of its first high-end integrated diagnostic centre in Raipur. The centre was inaugurated by T.S. Singh Deo, Minister of Health, Family Welfare, and Medical Education, Government of Chhattisgarh in the presence of Dr GSK Velu, Chairman and Managing Director, Neuberg Diagnostics, Dr Sandip Shah, Executive Director, Neuberg Diagnostics, Dr Ashwani Bansal, Sr Vice President, Neuberg Diagnostics, and Vishal Dutta, Centre Director (Raipur), Neuberg Diagnostics.

The Neuberg Diagnostics centre in Raipur offers complete routine to high-end diagnostic services under one roof, covering both pathology and radiology as an integrated model. The centre offers a length of services across modalities from routine to super-specialty testing.

Maintaining the highest quality standards by having the best doctors onboard and ensuring regular quality checks, the lab will conduct over 5000 pathological investigations, along with radiological & cardiology diagnostics such as MRI, CT, X-ray, sonography, mammography, echo-cardiography and ECG at this centre.

Apart from the tests and investigation, the centre also offers various in-house services such as home collection services across Raipur, ambulance services, counseling for various advanced investigations, and soon will start emergency scans which will be available 24x7.
