Karkinos Healthcare forays into Manipur to provide comprehensive cancer care

24 November 2022 | News

Going forward, the mission is to establish a unique â??distributed cancer careâ?? model based on the optimal utilisation of existing government healthcare infrastructure

Mumbai-based startup Karkinos Healthcare has launched its cancer care services in Manipur. It is focused on designing and delivering bespoke solutions for cancer care, led by a blend of globally acclaimed medical professionals and technologists.

The primary focus is on early detection and in getting the right diagnostics using a managed care approach.

Its wholly owned subsidiary Karkinos Healthcare North East is establishing a world-class Greenfield Comprehensive Cancer Care Hospital at Imphal, thereby optimising the medical resources and infrastructure in collaboration with Jawaharlal Nehru Institute of Medical Sciences (JNIMS) and with support and guidance from the Government of Manipur. The Comprehensive Cancer Care Institute will be operational at the earliest.

Tata Group, Reliance Industries, Mayo Clinic, and Rakuten Medical Inc. are among the world's leading organizations that have invested in Karkinos Healthcare. The company has also partnered with Tata Memorial Hospital, Guys and St Thomas NHS Foundation Trust (UK), and has inked several research collaborations with leading academic institutions in the United States to stay on the cutting edge of oncology treatment and care.
