

Heartfulness Institute inks partnership with All India Institute of Medical Sciences

29 March 2023 | News

Collaborative research will include the fields of cancer, diabetes, cardiovascular and other diseases

Heartfulness Institute makes a landmark partnership with All India Institute of Medical Sciences (AIIMS) by signing a Memorandum of Understanding (MoU) in New Delhi.

The purpose of the agreement between the parties is to make Heartfulness meditation and relaxation techniques specifically related to Health and Medicine and to put to best use and apply each party's infrastructure and capabilities to conduct research, education at universities, institutions, corporate houses, schools and colleges, Government Departments, Medical professionals etc., and other related activities in collaboration.

The aim of education and research activities is to bring meditation and sciences in the day-to-day life and impacting various aspects of human health and wellbeing.

Collaborative research will also include the fields of cancer, diabetes, cardiovascular and other diseases, catering to the areas of preventive, curative and palliative care with an objective to improving the quality of life of the patient and their family.

Research will also involve areas like epigenetics, intuition and infertility related issues. Both the parties will also submit joint proposals and white papers to Government or private agencies or organisations when opportunity arises and present final

research papers at events and seminars jointly organised.
