Amrita School of Ayurveda and Rashtriya Ayurveda Vidyapeeth to create repository of clinical cases in Ayurveda

01 April 2023 | News

Modality of data exchange and finance to be determined via mutual consultation and agreement

Amrita School of Ayurveda and Rashtriya Ayurveda Vidyapeeth, Ministry of AYUSH have signed a Memorandum of Understanding (MoU) to further develop the AyurCeL (online portal) and create a repository of clinical cases in Ayurveda.

This collaboration will facilitate the generation of practice-based evidence by helping clinicians report clinical outcomes systematically supported by multimedia.

The MoU was signed by Dr Kousthubha Upadhyaya on behalf of Rashtriya Ayurved Vidyapeeth and Swami Sankaramritananda Puri on behalf of Amrita School of Ayurveda.

The Ayurveda Clinical e-Learning (AYURCeL) project aims to fill this gap by creating a web platform to make available the clinical experiences of successful Ayurveda clinicians in a digital form and format that will facilitate continuous clinical learning based on well-documented case studies.

Under the MoU, the collaboration between Amrita School of Ayurveda, Kerala, and RAV (Rashtriya Ayurveda Vidyapeeth), will be established in the area of mutual interest to both the institutions for submission of selected clinical case reports of the Certificate course of RAV (CRAV) students after due verification from their corresponding Gurus to the AyurCeL portal for preliminary screening every month.

The Amrita School of Ayurveda, Kerala shall examine the submitted cases as per their selection criterion and update the case report and further follow-ups and after vetting done by the experts shall publish the report in the portal.
