

Aster DM Healthcare opens tele-command centre and digital health facility in Bengaluru

26 April 2023 | News

The unique centre leverages technology to offer all telehealth services under one roof

Aster DM Healthcare has opened its Tele-command Centre and Digital Health - India office in Bengaluru. This cutting-edge facility is set to revolutionise the way healthcare providers deliver remote care to patients around the world.

The Centre is equipped with the latest technology and staffed by a team of highly skilled medical professionals. From this state-of-the-art facility, doctors and nurses can remotely monitor and treat patients in real-time, providing expert care and guidance from a distance.

The Centre will be the backbone of all telehealth operations in India offering a range of services, including virtual consultations, remote patient monitoring, teleICU, teleradiology and telemedicine-enabled interventions.

Dr Nitish Shetty, Chief Executive Officer (CEO), Aster DM Healthcare (India) said, "The COVID-19 pandemic demonstrated how well digital health can make a difference to patient care. We see a great synergy with our existing healthcare portfolio and are further setting up similar centers in Kerala and the Andhra region to further extend our reach to provide quality care."

Brandon Rowberry, CEO of Digital Health said, "We are taking a major step towards revolutionizing the way healthcare is delivered. In addition, we will also shortly launch myAster – an omnichannel offering of all healthcare services in India."
