Health Basix closes funding round led by Dr GSK Velu and Callapina Capital

05 June 2023 | News

Sets the stage for the organisation to have an even greater impact on paediatric healthcare services

Coimbatore-based startup Health Basix has successfully closed a funding round led by Dr GSK Velu and Callapina Capital, enabling it to extend its reach across 30 cities in 8 Indian states.

This significant milestone not only enables Health Basix to extend its reach across 30 cities in 8 Indian states but also reinforces its commitment to improving the health and well-being of students. With a focus on Paediatric EMR, School Clinics, Counseling, Health Assessments, and Special Education Services, Health Basix aims to ensure that every child has access to quality healthcare within their school environment.

The round was led by Dr GSK Velu, an esteemed healthcare luminary (Neuburg Diagnostics, Trivitron, Maxi Vision, Apollo Dental) and Callapina Capital, along with the participation of Sapphire Ink Ventures, and Super Morpheus.

With the successful bridge funding round, Health Basix is poised to expand its operations, extending its services to more schools and cities across India. By scaling its presence, the startup aims to bridge the healthcare gap in educational institutions, ensuring that even underserved communities have access to quality healthcare services.
