Yashoda Medicity and DrÃ¤ger India to bring cutting-edge medical gas management system in India

03 August 2023 | News

An exceptional modular ICU setup in South Asia to provide unparalleled patient care

Yashoda Medicity, the upcoming healthcare facility by Yashoda Foundations in Indirapuram, is collaborating with Dräger India, a renowned global medical and safety technology solutions provider. Yashoda Medicity is the new addition to the renowned healthcare institution Yashoda Super Speciality Hospital, well acknowledged for its exceptional patient care and facilities.

Together, Yashoda Medicity and Dräger are embarking on a groundbreaking initiative to establish one of the largest modular Intensive Care Unit (ICU) setup in South Asia. The focus of this project is to prioritise infection prevention control, patient and staff safety, and enhanced hospital efficiency, while ensuring adaptability to respond to the ever-evolving needs of the hospital.

The upcoming Yashoda Medcity project in Indirapuram, Ghaziabad, spans across 8 acres of land and will house a state-of-the-art 250-bedded modular ICU. This landmark infrastructure project will significantly strengthen the healthcare sector in Delhi NCR, Uttar Pradesh, and neighbouring states of India.

The construction of the medical gas management system and the modular ICU setup is already underway and is expected to be completed within the next few months. Once operational, the facility will significantly enhance the critical care capabilities of Yashoda Medicity, providing patients with access to state-of-the-art medical care in a cutting-edge environment.
