Medix Global announces winners of Digital Health Innovation Challenge 2023

26 August 2023 | News

Medix Global recognises innovative healthtech solutions addressing women's health and mental well-being through this challenge

Medix Global, a pioneering healthcare management company, has announced the winners of the Medix' Digital Health Innovation Challenge 2023 - India. This trailblazing initiative highlighted the compelling combination of collaboration, technology, and innovation in tackling India's critical healthcare concerns, with a particular focus on women's health and

mental well-being.

The challenge recognised visionary healthtech startups and innovators that are leveraging effective and exceptional digital and artificial intelligence (AI) driven solutions that will transform the Indian healthcare industry. It attracted 146 applications from startups across India.

Over 1,000 attendees at the event witnessed the announcement of the Winner and the two runners-up.

Jumping Minds, the winner of the challenge, offers an innovative solution in the realm of mental well-being. Their platform serves as an anonymous, safe, and secure service for the younger generations. It smartly connects them to the right peers dedicated to personal and emotional development.

MyHealthcare, the first runner-up in the challenge, offers a digital care ecosystem that improves healthcare delivery services, enhancing patient care outcomes.

NewMi, the second runner-up, excels in women's healthcare by offering a comprehensive approach to address women specific health issues.
