Manipal Global Education Services launches first-of-its-kind app for medical learning

14 September 2023 | News

The appâ??s very foundation is rooted in understanding the needs of learners

Manipal Global Education Services, a leading international provider of quality learning solutions in higher education, has launched Manipal MedAce, a first-of-its-kind super app for Medical Learning and Medical PG Prep, in a new mobile and cloud first format.

Manipal MedAce is a comprehensive and outcome driven resource built on academic and learner research. It enables MBBS students to supplement campus learning by providing access to a Comprehensive and Curated learning resource on a single platform through its Learn Product. It provides a Personalised Experience for PG aspirants that is Efficient, Clutter free and Stress Free, through its Prep Product.

The Learn product for Basic Sciences contains dynamic, engaging, credible and easily accessible content, designed around the microlearning philosophy to provide flexible learning options. MedAce offers a plethora of resources, such as Micro learning modules; Live tutoring sessions; Online dissection lab; 3D interactive learning; and Gamified assessments.

On the other hand, Prep provides a comprehensive learning experience to empower medical students on their journey to NEET PG/NexT/INICET/FMGE success. It is the only platform conceived and developed in accordance with NExT guidelines. It adheres to CBME curriculum- defined categories, including Must Know, Nice to Know, and May Know, ensuring that students are well-prepared for the new examination platform. The entire MCQ bank is designed based on these guidelines, focusing on problem-solving, comprehension, and recall skills.
