Galgotias University and HCL to open medical centre for students in Greater Noida

18 September 2023 | News

Partnership acknowledges the increasing mental health challenges faced by students

Galgotias University has announced a collaboration with HCL Healthcare to establish a cutting-edge medical centre right within its campus in Greater Noida. This partnership marks a significant milestone in the pursuit of the shared vision to provide accessible and high-quality healthcare services to the entire student body at Galgotias University.

The new medical centre at Galgotias University will offer unparalleled benefits to both students and staff, who will have easy access to healthcare services right on campus, ensuring prompt and convenient medical attention.

The significance of this partnership lies in HCL Healthcare's expertise as a digital technology leader. With access to advanced digital platforms and a track record of innovation, HCL Healthcare is poised to drive advancements in healthcare services and ensure universal health coverage. This collaboration promises to revolutionise healthcare delivery within the Galgotias campus.

The partnership acknowledges the increasing mental health challenges faced by students in today's society. It highlights the importance of timely counselling and mental health support, underlining the potential to save lives through such interventions.
