Unlocking Tomorrow's Solutions in Chromatography with Purify'23 Conclave

05 October 2023 | News

This ground-breaking event is tailor-made for scientists, analytical and research and development professionals

Purify'23, the premier chromatography purification conference, is set to take place on November 7, 2023, at the luxurious ITC Kohenur in Hyderabad.

Purify'23 is not just a conference; it's a global convergence of scientific minds. Attendees will have the unique opportunity to delve into the dynamic world of chromatography purification, exploring cutting-edge developments, trends, and technologies. This event promises to be a catalyst for innovation and collaboration in the industry.

Key highlights of Purify'23 include:

1. **Global Reach**: Purify'23 is truly global in nature, attracting participants and experts from across the globe. This international perspective ensures a diverse range of insights and experiences that can drive progress in chromatography purification.
2. **Comprehensive Agenda**: With nearly nineteen thought-provoking talks, Purify'23 will cover a wide spectrum of facets and trending topics in the field of chromatography purification. From advanced separation techniques, good practices, innovative technologies, impact of IT, case studies, novel column materials, scaleups, green technology, with digitalisation and much more, participants will gain valuable insights to enhance their performance.
3. **Engaging Panel Discussions**: The conference will feature three insightful panel discussions featuring eminent industry experts. The panellists participating in these discussions are luminaries from the pharmaceutical industry, bringing their vast experience and knowledge to the forefront. Their insights will help attendees understand the challenges and opportunities that lie ahead in chromatography purification. These discussions will revolve around critical topics such as "Importance of Investing in Right Technologies for Business Growth," "AI: A Disruptor or Enable for Pharmaceutical and Bio-Pharmaceutical Industries," and “Demystifying the Complexity of Oligo Nucleotide Business”. These deliberations are sure to provide valuable perspectives on the industry's future direction.
4. **Networking Opportunities**: Purify'23 offers attendees a platform for immense networking opportunities throughout the day. The event encourages collaboration, idea exchange, and the forging of valuable professional connections. Furthermore, a sumptuous business networking dinner post-conclave at ITC Kohenur promises to be an evening of informal discussions and relationship building.
5. **Strong Industry Support**: The event is sponsored by the top leading companies in chromatography purification and supported by our very eminent advisory board. This invaluable support ensures that Purify'23 remains at the forefront of industry advancements and insights.

Purify'23 is more than a conference; it is a gateway to the future of chromatography purification. Scientists, researchers, and industry professionals are invited to be a part of this transformative event and shape the future of pharmaceutical research.
