CORE Diagnostics expands footprint in South India with new specialised lab in Hyderabad

03 November 2023 | News

Anticipates a significant revenue boost of Rs 40 million

Gurugram-based CORE Diagnostics, a leading provider of high end and specialised diagnostics services, has announced the opening of a new lab which is located in Secunderabad.

This 4000 square feet new lab has all the latest tools for Histopathology, Immunohistochemistry, Nephropathology, Flow Cytometry, in addition to essential services including Biochemistry, Immunology, Hematology, Clinical Pathology and Serology.

It is anticipated that this lab would strengthen CORE Diagnostics' capabilities and make it possible to offer a larger range of thorough diagnostic solutions to a larger customer in Telangana and Andhra Pradesh and other part of Southern India. This will ensure better and faster turn-around time (TAT) to patients.

With this new specialised lab, CORE Diagnostics is poised to reinforce its presence in the southern region of India and anticipates a significant revenue boost of Rs 40 million. Also, this lab will allow to bring high quality diagnostic solutions closer to healthcare providers and patients, empowering them with timely and precise information for medical decisions.
