

## Cipla further invests Rs 42 Cr in GoApptiv, to hold 22.99% stake in digital tech company

15 December 2023 | News

**Strengthens investment in channels of the future to expand patient reach**

Mumbai-based pharma firm Cipla has agreed to further invest Rs 42 crore (approx.) in digital tech company GoApptiv. In line with Cipla's ambition to strengthen investments in channels of the future, this development will further expand Cipla's presence across the healthcare continuum, especially to the underserved population by enabling greater access to lifesaving treatments.

With the completion of this deal, Cipla's total stake in Mumbai-based startup GoApptiv will increase to 22.99% on a fully diluted basis. This is Cipla's third investment in GoApptiv, which will be made in a combination of equity shares and compulsorily convertible preference shares.

GoApptiv has experienced significant expansion in underpenetrated areas and product lines following prior investments by Cipla in 2022 and 2020.

Commenting on the development, Umang Vohra, MD and Global CEO, Cipla, said, "In this era of technology-driven healthcare, this expanded investment will help us deliver patient-centric solutions and further strengthen our digitisation agenda to drive Cipla's next phase of growth."

GoApptiv's use of technology to provide quality and affordable healthcare aligns with Cipla's commitment to making a positive impact on communities through innovative solutions. The current investment round will further solidify the partnership with GoApptiv in addressing healthcare disparities in underserved regions of India.
