Srinath Venkatesh steps in as MD- India and South Asia at Thermo Fisher Scientific

21 January 2024 | News

Venkatesh was earlier serving as the President- Danaher India

Srinath Venkatesh has stepped in as the Managing Director (MD), India and South Asia, Thermo Fisher Scientific India, as the company embarks into another transformative year of growth and making a meaningful impact with its purpose-driven mission.

Venkatesh's proven record of over 30 years has been pivotal in driving sustained growth and success across businesses. Under his visionary leadership, Thermo Fisher will continue its legacy of excellence and steer its operations in India to greater heights.

Previously, Venkatesh was serving as the President- Danaher India, and prior to that, business leadership roles including Managing Director- India & South East Asia for Cepheid; Country Leader and Chief Executive Officer for GE in Bangladesh.

He started his professional career in 1993, and has held several sales, commercial and business leadership positions across the industrial and capital businesses.
