

OmniActive Health appoints Amit Chopra as President and Chief Executive Officer

07 February 2024 | News

Served in various leadership positions and brings a wealth of experience

OmniActive Health Technologies, an innovative science and natural health company, has announced the appointment of Amit Chopra as its new President and Chief Executive Officer.

Chopra has served in various leadership positions and brings a wealth of experience in general management, commercial, manufacturing, M&A, and innovation. Most recently, he served as Managing Director for India and South Asia at Thermo Fisher Scientific, where he led the region to become one of the fastest-growing markets globally by building a highly engaged world-class leadership team, transforming customer experience, and successfully integrating multiple Indian and global acquisitions.

In his prior role, he worked in several leadership roles with ICI in India and Asia Pacific. Chopra holds a bachelor's degree in chemistry from St. Stephen's College, University of Delhi, and an MBA in Marketing and Finance from XLRI Jamshedpur, India.

Amit Chopra said, "OmniActive is a pioneer and an innovator, and the company's investments in research and sustainability have led to meaningful breakthroughs in the global healthcare and nutraceuticals industries. OmniActive's inspiring mission of 'improving lives through innovative science and natural health solutions' aligns closely with my values." He will be based at the OmniActive Mumbai headquarters.
