PM inaugurates All India Institute of Medical Sciences in Jammu

20 February 2024 | News

AIIMS Jammu has established collaborations with premier institutes like IIT, IIM, IIIM, and others for creating a responsive, adaptable, and globally connected healthcare ecosystem

Prime Minister (PM) Narendra Modi inaugurated the All India Institute of Medical Sciences (AIIMS), Jammu, on 20th February. The Prime Minister also inaugurated, launched and laid foundation stone of various other development works in the region and interacted with beneficiaries of Central schemes.

On inaugurating AIIMS Jammu, the Prime Minister said, “the Union Government has added 15 new AIIMS in the last 10 years, including two in J&K alone.” He said that “after the commissioning of AIIMS Jammu, people of Jammu will no longer have to leave for Delhi to avail specialized medical treatment, which will help them save valuable time and resources.”

AIIMS Jammu is established under the auspices of the Pradhan Mantri Swasthya Suraksha Yojana (PMSSY), to address regional healthcare imbalances, encourage evidence-based research and elevate medical education standards in our country.

The hospital is set to offer comprehensive medical services, with an expected daily footfall of 2000-3000 patients in the outpatient department. Phase-1 will see the establishment of 750 beds, including 193 ICU beds catering to trauma care, general care, and super-specialties.

AIIMS Jammu plans to encompass approximately 50 departments, both general and specialised care. Advanced facilities like Nuclear Medicine, 20 Modular OTs, MRI, and CT Scan, operating round the clock, will ensure that humane and continuous care is readily available.

It will have an annual intake of 100 students for its MBBS programme and 60 students for nursing. It will also introduce Post-Graduate programmes in Medical, Dental (MD/MS/MDS), Nursing, Super Specialization programs (DM/MCh), Doctorate (PhD) degrees, and more in the future.
