Apollo Diagnostics expands presence in Pune with launch of 4 new centres

05 March 2024 | News

Expanding reach in India's interior regions by establishing additional centres

Apollo Diagnostics, a division of Apollo Health and Lifestyle Limited (AHLL), has launched four new centres across Pune, Maharashtra in Kalyani Nagar, Baner, Ravet and Kothrud.

With a total of 1700 centres operational across India & 150 centres now in operation Pune, Apollo Diagnostics is demonstrating its commitment in providing accessible and quality diagnostic services to a larger population in Pune.

This expansion will likely enhance healthcare accessibility and contribute positively to the overall well-being of the community. A precise diagnosis is crucial for promptly identifying illnesses, allowing doctors to accurately diagnose health conditions and administer appropriate treatments for improved quality of life.

The recently opened centre serves as a comprehensive hub across Kalyani Nagar, Baner, Ravet and Kothrud for various intricate pathology tests, ensuring reliable and high-quality reports, swift testing, and top-notch services for all individuals. Patients can conveniently opt for home sample collection through a simple 6-step procedure and easily access their reports whenever needed.
