Medical aesthetics brand Beagle Lasers aims to expand in 50+ cities

13 March 2024 | News

Bridging the gap between manufacturers and end-users by providing a comprehensive range of high-quality laser products

Surat-based medical aesthetics company Beagle Lasers has announced its expansion plans across 50+ cities, significantly increasing its footprint from 17 cities presently served. This expansion primarily targets tier 2 and 3 cities like Srinagar, Tamil Nadu, Karnataka, and Orissa to name a few.

With this expansion, Beagle Lasers' aims to enhance accessibility to medical equipment and technologies for doctors, hospitals, and healthcare providers nationwide. As part of this expansion, Beagle Lasers will be investing between Rs 10 to 15 crore in infrastructure development, including the establishment of new factories and production facilities.

This investment will further solidify the company's commitment to scaling its operations and meeting the growing demand for advanced medical equipment and technologies across the country. This in turn will create employment opportunities for 5000 people in the country.

With a vision to enhance the medical aesthetic device landscape, Beagle Lasers aims to bridge the gap between manufacturers and end-users by providing a comprehensive range of high-quality laser products and devices such as Dhanush, Nakul etc. They currently have stores in Delhi, Gujarat, Madhya Pradesh, Haryana, Chattisgarh etc. This expansion initiative is poised to bring innovative solutions closer to medical practitioners and healthcare institutions, ensuring they have access to the latest advancements in medical technology.

Beagle Lasers has also recently obtained a manufacturing license, enhancing its capabilities to produce and distribute innovative medical devices.
