Spinco Biotech inks distribution partnership with Powder Systems

24 April 2024 | News

Bringing the best of filtration and drying technology to empower industries across India

Chennai-based Spinco Biotech has announced its distribution partnership with UK-based Powder Systems Limited (PSL), renowned for its solid-liquid separation solutions for filtration, drying, and processing particularly in Agitated Nutsche Filter

Dryers (ANFD).

From research & development activities to larger commercial production scale, the diverse range of solutions from PSL spans various industries including pharmaceuticals, fine chemicals and precious metals.

Joined with PSL’s expertise in designing and engineering advanced technology to support process development and shared values of quality and innovation, PSL looks forward to uniting with Spinco to provide first class products and customer service throughout India.

“I am excited at the opportunity to partner with Spinco to help clients address challenging manufacturing processes by providing fit-for-purpose solutions from our wide range of filtration, drying and processing ranges. The expertise and knowledge of both companies makes this an exciting collaboration", said Sylvain Querol, Head of Business Development, PSL.
