Paras Health expands footprint in Delhi-NCR with new medical technologies

29 April 2024 | News

New hospital is expected to be completed in 2026

Paras Healthcare, a corporate hospital chain which launched its first hospital in Gurugram in 2006, is expanding its healthcare services in Delhi-NCR with the forthcoming 300-bed hospital in Gurugram.

The hospital chain will double the number of beds in Gurugram to 600 beds approximately, expanding its presence in the National capital region (NCR) to 2 hospitals.

With this addition, the total number of hospitals under Paras Health will be 9, covering North India, Bihar and Jharkhand. The new hospital will be situated in Gurugram sector 63-A and is expected to be completed in 2026. This marks another significant milestone in the hospital's journey towards expanding its healthcare offerings.

The second hospital is focusing to expand their Organ Transplant programmes by including Lung and Liver transplants. They are already catering to the Kidney and Bone Marrow transplant programmes.

Furthermore, the facility will be equipped with advanced medical technology such as Robotic and Navigation systems while catering to both international and domestic patients. The new hospital will offer healthcare services in Oncology, Gastroenterology, Neuro Sciences, Cardiac Sciences, and Orthopedics to the patients.
