

IIHMR Start-ups inks MoU with BMCHRC & HCG Hospital to drive healthcare entrepreneurship

17 May 2024 | News

Extending expertise to foster innovation in healthcare

IIHMR Start-ups, a pioneering initiative under the IIHMR Foundation, has announced the signing of a Memorandum of Understanding (MoU) with Bhagwan Mahaveer Cancer Hospital and Research Centre (BMCHRC) and HCG Hospital, Jaipur.

These strategic collaborations aim to provide essential support and growth opportunities for healthcare startups. Key areas of focus will include Clinical Research, Device Validation, Technology Implementation, and comprehensive support for Corporate Social Responsibility (CSR) initiatives.

Commenting on this initiative, Dr PR Sodani, Co-Founder, IIHMR Foundation, said, "This collaboration with Bhagwan Mahaveer Cancer Hospital & HCG Hospital will allow both institutes to exchange expertise & resources, and further build on each other's strength. This merger will prove to be an excellent stride between academic know-how and industry innovation. Together we will create enticing opportunities for budding entrepreneurs and significantly contribute to the society."

Puneet Datta, CEO, IIHMR Foundation, stated, "These alliances are instrumental in our mission to support and empower healthcare startups. Together, we will drive innovation and create meaningful impacts across various industries."
