

Advanced Biochemicals opens office in China

10 May 2005 | News

Advanced Biochemicals Ltd, a sister company of Speciality Enzymes and Biochemicals Co, USA, sees a lot of opportunity in China for its enzymes and set up an office in the country. C L Rathi, managing director, Advanced Biochemicals Ltd said, "In Asia Pacific region we see a great opportunity in China for our industrial enzyme products. We have already opened an office in China and appointed an agent to study the various options such as setting up manufacturing facility, dealership and tie-ups. Based on the outcome of the study we will enter the market. The new office in China will allow help the company to serve its existing and new clients in Asia."
