Lilavati Hospital announces new state-of-the-art cancer care institute in Mumbai

23 January 2025 | News

Commencement of collaboration With The Mayo Clinic, USA for the first ever Nursing Excellence Programme in India

Lilavati Hospital has announced the establishment of a new Cancer Care Institute, featuring a 300-bed hospital in Mumbai. This cutting-edge facility is set to revolutionise cancer treatment in India by providing access to the latest technology, advanced treatments, and global best practices in oncology.

The new Cancer Care Institute will offer tailored treatments based on patient-specific factors, ensuring that each patient receives personalised and effective care. The high-quality care provided locally will eliminate the need for patients to travel abroad for treatment, saving both time and costs.

In addition to providing exceptional patient care, the facility will create numerous job opportunities for healthcare professionals, researchers, and support staff. This significant investment in the community will boost the local economy and contribute to the overall development of the healthcare sector in Mumbai.

The Cancer Care Institute will introduce AI-driven diagnostic tools for early and accurate cancer detection, improving patient outcomes and survival rates. Furthermore, Lilavati Hospital will launch awareness campaigns to educate communities about cancer risks, symptoms, and preventive measures, fostering a culture of health and wellness.

Lilavati Hospital has also announced the collaboration with the Mayo Clinic to commence the Nursing Excellence Programme. This Memorandum of Understanding (MoU) aims to enhance the skills and knowledge of the nursing staff through specialised training and development. The partnership covers various areas, including Nursing Excellence education, Nursing Quality and Patient Experience, Patient and Staff Safety, Nursing Governance and Leadership Development, Onboarding, Orientation, and Staff Development & Nurse Competency.

Through this partnership, Lilavati Hospital will deliver training through observation, real-time best practice considerations, and structured sessions. Upon completion of the programme, nurses will receive a certificate of completion from the Mayo Clinic.
