Maxivision Group of Eye Hospitals joins hands with Ojas Group of Eye Hospitals

15 February 2025 | News

Merging Ojas Eye Hospitals expertise in state-of-the-art surgical interventions and patient-focused care with Maxivisionâ??s extensive network

Maxivision Group of Eye Hospitals has announced its entry into Maharashtra through a strategic partnership with Ojas Group of Eye Hospitals, a world renowned and reputed eye care provider in Mumbai. Together, the newly formed Joint Venture – Ojas Maxivision Eye Hospitals aims to invest Rs 500 crore to expand operations across Maharashtra.

Under the visionary leadership of Dr Niteen Dedhia, Ojas Group of Eye Hospitals currently operates three premier centers in Mumbai—Bandra (W) and Kandivali (E)—providing exceptional eye care with international standards to patients through a team of expert Eye Surgeons and Faculty staff.

Ojas is the first eye hospital in Western India to introduce advanced eye treatments such as the flapless ELITA SILK procedure for vision correction, 3D imaging and robotic cataract procedures, phakic lens treatment for correction of very high eye powers and advance dry eyes treatment. The hospital remains dedicated to utilizing state-of-the-art technology to deliver the best visual outcomes to the patients.

Maxivision Super Specialty Eye Hospitals is one of the leading eye care facilities in India today. Presently, the network has expanded to include over 50+ centers, with continued growth, covering six states in South and West India. Maxivision has its network of hospitals in Telangana, Andhra Pradesh, Tamilnadu, Kerala, Gujarat and now entering Maharashtra and Madhya Pradesh. The company has also raised Rs 1300 crore from Quadria Capital last year to drive organic expansion and inorganic growth and cement its position as one of India's leading eye care platforms.

By merging Ojas Eye Hospitals expertise in state-of-the-art surgical interventions and patient-focused care with Maxivision's extensive network and commitment to innovation, the collaboration aims to revolutionise eye care standards in Maharashtra and reach out to the people in the interiors of the State.
