

Shah Brothers announces expansion to revolutionise single use manufacturing capabilities

04 March 2025 | News

Advanced ISO class 7 Inteviz Single-Use facility: Transforming India's Biopharma industry

Shah Brothers, a trusted partner in single use solutions, is constructing a new manufacturing facility in Vadodara. The three state-of-the-art buildings, covering 87,220 sq. ft, enhances manufacturing capacity for single use technology products in India.

The advanced ISO Class VII Inteviz facility will transform single-use assembly manufacturing with superior processes ensuring flexibility, compliance, and scalable production.

In addition, indigenous manufacturing of fluid handling solutions will ensure increased production capacity and tailored solutions to meet growing industry demands.

“This milestone strengthens our ability to serve our Indian and global partners with enhanced momentum, customized solutions, and unmatched reliability.” said company director Nishant Shah.

As the company embarks on this exciting journey, it reaffirms its commitment to excellence. As the industry needs growth, Shah Brothers continues to supply the biopharma and biotech industries with a range of innovative products, from upstream to fill-finish, including our flagship products under Inteviz customised single-use assemblies & Floviz brand, as well as connectors, tubing, pumps, mixers, and other single-use solutions.
