Neuberg Diagnostics and Magnum Imaging open integrated diagnostics centre in Trichy

15 April 2025 | News

Health Card launched exclusively for women health workers of the Tiruchirappalli City Corporation

Neuberg Diagnostics, in collaboration with Magnum Imaging & Diagnostics, has announced the launch of Neuberg Magnum, a cutting-edge integrated diagnostics and imaging centre in Trichy. This joint venture marks a new era in comprehensive and personalised healthcare for the region.

The grand launch of Neuberg Magnum was graced by Thiru. M.U. Anbalaagan, Mayor of Tiruchirappalli City Municipal Corporation, who formally inaugurated the main centre along with 14 new satellite centres across the Tiruchirappalli district through a virtual ceremony.

As part of Neuberg Magnum's commitment to preventive healthcare and women's wellness, a special Women Health Card was launched exclusively for women health workers of the Tiruchirappalli City Corporation. This initiative aims to empower frontline healthcare providers by offering them access to Pap Smear screening at Rs 300, Mammogram at Rs 500, and an additional 20% discount on blood tests, encouraging early detection of cervical and breast cancers.

Speaking on the occasion, Dr. GSK Velu, Chairman & Managing Director, Neuberg Diagnostics, said, "The centre aims to redefine early detection, disease monitoring, and wellness screening for all age groups, backed by AI-enabled technology, genomics, metabolomics, and oncopathology expertise. As Tamil Nadu's healthcare landscape evolves, Neuberg Magnum brings together the best of diagnostic and imaging services under one roof offering advanced pathology, radiology, genomics, and wellness testing to the people of Trichy and surrounding regions. With this launch, the joint venture will strengthen its footprint across the state with nearly 15 integrated diagnostic centres, 25 labs, and over 150 collection centres providing better accessibility, faster results, and world-class service."
